REGIONAL MASTER STANDING OFFER AGREEMENT

Fire, Safety and Rescue Equipment: **E60HN-14FSRE/013/HN**

Regional Master Standing Offer (RMSO) for the supply of Fire, Safety and Rescue Equipment, including those Federal Stock Classes 4210 and 4240, on “when required” basis.

The Identified Users authorized to make call-ups against the Standing Offer include any government department, agency or Crown Corporation listed in Schedules I, I.1, II, III, of the Financial Administration Act, R.S., 1985, c. F-11.

LIMITATIONS OF CALL-UPS

Individual call-ups against the Standing Offer must not exceed \$100,000, Goods and Services Tax or Harmonized Sales Tax included.

For individual requirements exceeding \$100,000, but below \$400,000, the Identified User must obtain written approval from the Standing Offer Authority before proceeding with the call-up.

Should an individual requirement exceed the limitation of call-up (\$400,000), a detailed funded requisition must be submitted to PWGSC for processing as a separate requirement in accordance with PWGSC standard policies and procedures.

Requirements shall not be broken into a number of call-ups for the purpose of requisitioning pursuant to the Standing Offer.

REGIONAL MASTER STANDING OFFER AGREEMENT

Fire, Safety and Rescue Equipment: **E60HN-14FSRE/013/HN**

PRICING

Discounts are applied to the Manufacturers Canadian List Price, as per Call up procedures step 2 and 3. Log onto www.fishersci.ca, email orders to fishersci.orders@thermofisher.com or contact our customer service at 1-800-234-7437.

No minimum order restrictions.

Government of Canada Acquisition Cards (credit cards) will be accepted for payment of call-ups against the standing offer

DELIVERY

Deliveries will be required all across Canada, excluding any land claims areas.

Delivery Duty Paid means the seller must pay for all of the costs related to transporting the goods and is responsible in full for the goods until they have been received and transferred to the buyer. This includes paying for the shipping, the duties and any other expenses incurred while shipping and importing the goods. Orders for items requiring air transportation that fall under IATA regulations may incur additional handling charges.

CONTROLLED GOOD

Fisher Scientific certifies access to controlled goods under the terms of this RMSO.

CALL-UP PROCEDURES

To raise a call-up:

Step 1: When a requirement is identified, the user must identify the manufacturer of the requirement and ensure that they are approved under the RMSO by appearing in the appropriate sub-category under Annex "A." If approved, the identified user must then contact the appropriate S.O holder, in the appropriate sub-category and region, requesting unit pricing and delivery for that particular manufacturer. It is the responsibility of the User to identify to the S.O holder that the request is part of the RMSO for Fire, Safety and Rescue Equipment. This is done by identifying the appropriate Standing Offer number on all quote requests and call-up forms.

If the S.O holder is unable to fulfil the need, the identified user is required to document its file appropriately, then choose an equivalent manufacturer approved under the RMSO and repeat step 1.

Step 2: If the S.O holder is able to fulfil the need, the call-up is placed with the S.O holder. Users must ensure the following information is included with all quote and/or call-up request forms:

- 1) The appropriate Standing Offer number
- 2) The common MSRP unit price
- 3) The required Standing Offer MSRP percentage discount
- 4) The unit price with the required percentage discount subtracted
- 5) Ensuring no additional shipping charges are included

ONLINE ORDERING CAN SAVE YOU TIME!
