SECTION 1 : Identification of the substance/mixture and of the supplier

Product name: Aluminum Potassium Sulfate

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25152D

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:
AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

Supplier Details:
Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

Emergency telephone number:
Fisher Science Education    Emergency Telephone No.: 800-535-5053

SECTION 2 : Hazards identification

Classification of the substance or mixture:
Not classified for physical or health hazards under GHS.

Hazard statements:

Precautionary statements:

Combustible Dust Hazard: :
May form combustible dust concentrations in air (during processing).

Other Non-GHS Classification:

WHMIS
D2A
NFPA/HMIS

NFPA SCALE (0-4)  HMIS RATINGS (0-4)
SECTION 3 : Composition/information on ingredients

Ingredients:

| CAS 7784-24-9 | Aluminum Potassium Sulfate | 100 % |

Percentages are by weight

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Remove to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Do not perform mouth-to-mouth on an unconscious person.

After skin contact: Wash affected area with soap and water. Seek medical attention if irritation persists or if concerned.

After eye contact: Protect unexposed eye. Rinse or flush exposed eye gently using water for 15-20 minutes. Remove contact lenses while rinsing. Occasionally lift the upper and lower eyelids while rinsing. Immediately get medical assistance.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Immediately get medical assistance. Provide SDS document to physician.

Most important symptoms and effects, both acute and delayed:

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention provide SDS document to physician.

SECTION 5 : Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water, dry chemical, chemical foam, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:

Advice for firefighters:

Protective equipment: Wear protective eyeware, gloves, and clothing.

Additional information (precautions): Ensure adequate ventilation. Avoid contact with skin, eyes, and clothing.

SECTION 6 : Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Use spark-proof tools and explosion-proof equipment.

Environmental precautions:

Should not be released into environment. Collect contaminated soil for characterization per Section 13.

Methods and material for containment and cleaning up:

Follow Chemical Hygiene Plan. Avoid dispersal of dust in the air. Do not clear dust on surfaces with compressed air. Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately. Observe precautions for protective equipment. Always obey local regulations. If necessary use trained response staff or contractor.

Reference to other sections:
SECTION 7 : Handling and storage

**Precautions for safe handling:**
Dust deposits should not be allowed to accumulate on surfaces. Dust may form an explosive mixture if sufficient concentration is released into the atmosphere. Follow Chemical Hygiene Plan. Do not inhale gases, fumes, dust, mist, vapor, and aerosols. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Follow good hygiene procedures when handling chemical materials. Do not eat, drink, smoke, or use personal products when handling chemical substances. Use only in well ventilated areas.

**Conditions for safe storage, including any incompatibilities:**
Keep container tightly closed in a cool, dry, and well-ventilated area. Store away from incompatible materials. Keep away from food, beverages, and feed sources.

SECTION 8 : Exposure controls/personal protection

**Control Parameters:**
- Nuisance dust, ACGIH TLV TWA: 10mg/m3 (inhalable particles)
- Nuisance dust, OSHA PEL TWA: 15 mg/m3 (total dust)

**Appropriate Engineering controls:**
It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Normal ventilation is adequate.

**Respiratory protection:**
Not required under normal conditions of use.

**Protection of skin:**
Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation.

**Eye protection:**
Safety glasses with side shields or goggles.

**General hygienic measures:**
The usual precautionary measures are to be adhered to when handling chemicals. Wash hands before breaks and at the end of work. Wash hands and exposed skin with soap and plenty of water. Keep away from food, beverages, and feed sources.

SECTION 9 : Physical and chemical properties

Density: 1.757 g/mL at 25 °C (77 °F)

SECTION 10 : Stability and reactivity

Reactivity:
Chemical stability: Stable under normal conditions.
Possible hazardous reactions:
Conditions to avoid: Excessive heat.
Incompatible materials:
Hazardous decomposition products: Aluminum oxide. Sulfur oxides

SECTION 11 : Toxicological information

Acute Toxicity: No additional information.
Chronic Toxicity: No additional information.
Corrosion Irritation: No additional information.
Sensitization: No additional information.
Single Target Organ (STOT): No additional information.
Numerical Measures: No additional information.
Carcinogenicity: No additional information.
Mutagenicity: No additional information.
Reproductive Toxicity: Fetotoxicity: Rat oral administration resulted in effects on embryo or fetus (except death, e.g., stunted fetus)

SECTION 12 : Ecological information

Ecotoxicity Persistence and degradability:
Bioaccumulative potential:
Mobility in soil:
Other adverse effects:

SECTION 13 : Disposal considerations

Waste disposal recommendations:
Dilute with water and flush to sewer. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.
SECTION 14 : Transport information

UN-Number
UN proper shipping name
Transport hazard class(es)
Packing group:
Environmental hazard:
Transport in bulk:
Special precautions for user:

SECTION 15 : Regulatory information

United States (USA)
SARA Section 311/312 (Specific toxic chemical listings):
  None of the ingredients is listed
SARA Section 313 (Specific toxic chemical listings):
  None of the ingredients is listed
RCRA (hazardous waste code):
  None of the ingredients is listed
TSCA (Toxic Substances Control Act):
  All ingredients are listed.
CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):
  None of the ingredients is listed

Proposition 65 (California):
Chemicals known to cause cancer:
  None of the ingredients is listed
Chemicals known to cause reproductive toxicity for females:
  None of the ingredients is listed
Chemicals known to cause reproductive toxicity for males:
  None of the ingredients is listed
Chemicals known to cause developmental toxicity:
  None of the ingredients is listed

Canada
Canadian Domestic Substances List (DSL):
  All ingredients are listed.
Canadian NPRI Ingredient Disclosure list (limit 0.1%):
  None of the ingredients is listed
Canadian NPRI Ingredient Disclosure list (limit 1%):
  None of the ingredients is listed

SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the
SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.

**GHS Full Text Phrases:**

**Abbreviations and acronyms:**
- IMDG: International Maritime Code for Dangerous Goods
- PNEC: Predicted No-Effect Concentration (REACH)
- CFR: Code of Federal Regulations (USA)
- SARA: Superfund Amendments and Reauthorization Act (USA)
- RCRA: Resource Conservation and Recovery Act (USA)
- TSCA: Toxic Substances Control Act (USA)
- NPRI: National Pollutant Release Inventory (Canada)
- DOT: US Department of Transportation
- IATA: International Air Transport Association
- GHS: Globally Harmonized System of Classification and Labelling of Chemicals
- ACGIH: American Conference of Governmental Industrial Hygienists
- CAS: Chemical Abstracts Service (division of the American Chemical Society)
- NFPA: National Fire Protection Association (USA)
- HMIS: Hazardous Materials Identification System (USA)
- WHMIS: Workplace Hazardous Materials Information System (Canada)
- DNEL: Derived No-Effect Level (REACH)
