**SECTION 1 : Identification of the substance/mixture and of the supplier**

**Product name:** n-Propyl Alcohol, Reagent grade

**Manufacturer/Supplier Trade name:**

**Manufacturer/Supplier Article number:** S25507

**Recommended uses of the product and uses restrictions on use:**

**Manufacturer Details:**
AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

**Supplier Details:**
Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

**Emergency telephone number:**
Fisher Science Education    Emergency Telephone No.: 800-535-5053

---

**SECTION 2 : Hazards identification**

**Classification of the substance or mixture:**

- **Flammable**
  - Flammable liquids, category 2

- **Corrosive**
  - Serious eye damage, category 1

- **Irritant**
  - Specific target organ toxicity following single exposure, category 3

**Hazard statements:**
Highly flammable liquid and vapour
Causes serious eye damage
May cause drowsiness or dizziness

**Precautionary statements:**
If medical advice is needed, have product container or label at hand
Keep out of reach of children
Read label before use
Keep container tightly closed
Keep away from heat/sparks/open flames/hot surfaces. No smoking
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/light/…/equipment
Use only non-sparking tools  
Take precautionary measures against static discharge  
Use only outdoors or in a well-ventilated area  
Wear protective gloves/protective clothing/eye protection/face protection  
Avoid breathing dust/fume/gas/mist/vapours/spray  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing  
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower  
Immediately call a POISON CENTER or doctor/physician  
In case of fire: Use ... for extinction  
Call a POISON CENTER or doctor/physician if you feel unwell  
Store in a well ventilated place. Keep container tightly closed  
Store in a well ventilated place. Keep cool  
Store locked up  
Dispose of contents/container to ...

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. If breathing is difficult give oxygen. Get medical assistance.

After skin contact: Wash affected area with soap and water. Wash hands and exposed skin with soap and

Created by Global Safety Management, Inc. - Tel: 1-813-435-5161 - www.gsmsds.com
plenty of water for 15-20 minutes. Remove contaminated clothing and shoes while rinsing. Seek medical attention if irritation persists or if concerned. Before wearing wash contaminated clothing.

**After eye contact:** Protect unexposed eye. Immediately flush eyes with water for at least 15 minutes. Immediately get medical assistance.

**After swallowing:** Rinse mouth thoroughly. Do not induce vomiting. Immediately get medical assistance.

**Most important symptoms and effects, both acute and delayed:**
- Shortness of breath
- Irritation
- Nausea
- Headache

**Indication of any immediate medical attention and special treatment needed:**
If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

---

**SECTION 5 : Firefighting measures**

**Extinguishing media**
- **Suitable extinguishing agents:** Water spray can keep containers cool. Use carbon dioxide, dry chemical, or foam.
- **For safety reasons unsuitable extinguishing agents:** Water may be ineffective.

**Special hazards arising from the substance or mixture:**
Thermal decomposition can lead to release of irritating gases and vapors.

**Advice for firefighters:**
- **Protective equipment:** Wear protective eyeware, gloves, and clothing. Refer to Section 8.
- **Additional information (precautions):** Remove all sources of ignition. Avoid contact with skin, eyes, and clothing. Take precautions against static discharges.

---

**SECTION 6 : Accidental release measures**

**Personal precautions, protective equipment and emergency procedures:**
Ensure adequate ventilation. Use spark-proof tools and explosion-proof equipment. Ensure that dust-handling systems (exhaust ducts, dust collectors, vessels, and processing equipment) are designed to prevent the escape of dust into the work area.

**Environmental precautions:**
If necessary use trained response staff or contractor. Absorb with a noncombustible absorbent material such as sand or earth and containerize for disposal. Refer to Section 13. Clean up spills immediately. Observe precautions for protective equipment. Ventilate area of leak or spill.

**Reference to other sections:**

---

**SECTION 7 : Handling and storage**

**Precautions for safe handling:**
Do not eat, drink, smoke, or use personal products when handling chemical substances. Use only in well ventilated areas. Do not eat, drink, smoke, or use personal products when handling chemical substances. Wash hands before breaks and immediately after handling the product. Do not inhale gases, fumes, dust, mist, vapor, and aerosols. Follow good hygiene procedures when handling chemical materials. Refer to Section 8.

**Conditions for safe storage, including any incompatibilities:**
Store in a cool location. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Keep container tightly sealed.

---

**SECTION 8 : Exposure controls/personal protection**
n-Propyl Alcohol, Reagent grade

Control Parameters:

71-23-8, n-Propyl Alcohol, ACGIH: 100 ppm TWA
71-23-8, n-Propyl Alcohol, NIOSH: 250 ppm STEL; 625 mg/m3 STEL
71-23-8, n-Propyl Alcohol, NIOSH: 200 ppm TWA; 500 mg/m3 TWA

Appropriate Engineering controls:

Ensure that dust-handling systems (exhaust ducts, dust collectors, vessels, and processing equipment) are designed to prevent the escape of dust into the work area. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.

Respiratory protection:

Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin:

Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation.

Eye protection:

Safety glasses with side shields or goggles.

General hygienic measures:

Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Perform routine housekeeping.

SECTION 10: Stability and reactivity

Reactivity:

Chemical stability: Stable under normal conditions.

Possible hazardous reactions: None under normal processing.
n-Propyl Alcohol, Reagent grade

Conditions to avoid: Incompatible materials, flames, heat, and sparks.
Incompatible materials: Strong acids. Strong oxidizers.
Hazardous decomposition products: Carbon oxides (CO, CO2).

Chronic Toxicity: No additional information.

Corrosion Irritation:
Ocular: Severe eye irritant.
Sensitization: No additional information.

Single Target Organ (STOT): No additional information.
Numerical Measures: No additional information.
Carcinogenicity: No additional information.
Mutagenicity: Microorganisms have shown mutagenic effects.
Reproductive Toxicity: Has occurred in experimental animals.

SECTION 12: Ecological information

Ecotoxicity
- Fish: 96 Hr LC50 Pimephales promelas: 4480 mg/L
- Water Flea: 48 Hr EC50 Daphnia magna: 3642 mg/L
- Water Flea: 48 Hr EC50 Daphnia magna: 3339 - 3977 mg/L

Persistence and degradability: Expected to rapidly volatilize. Mobility: 0.25-0.34
Bioaccumulative potential: Not Bioaccumulative.
Mobility in soil: Aqueous solution has high mobility in soil.
Other adverse effects:

SECTION 13: Disposal considerations

Waste disposal recommendations:
It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 14: Transport information

## UN1274

**UN proper shipping name**  
N-PROPanOL

**Transport hazard class(es)**
- **Class:**  
  - 3 Flammable liquids

**Packing group:** II

**Environmental hazard:**
- Transport in bulk:

**Special precautions for user:**

### SECTION 15 : Regulatory information

**United States (USA)**

- **SARA Section 311/312 (Specific toxic chemical listings):**
  - Acute, Chronic, Fire
- **SARA Section 313 (Specific toxic chemical listings):**
  - None of the ingredients is listed
- **RCRA (hazardous waste code):**
  - None of the ingredients is listed
- **TSCA (Toxic Substances Control Act):**
  - All ingredients are listed.
- **CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):**
  - None of the ingredients is listed

**Proposition 65 (California):**

- **Chemicals known to cause cancer:**
  - None of the ingredients is listed
- **Chemicals known to cause reproductive toxicity for females:**
  - None of the ingredients is listed
- **Chemicals known to cause reproductive toxicity for males:**
  - None of the ingredients is listed
- **Chemicals known to cause developmental toxicity:**
  - None of the ingredients is listed

**Canada**

- **Canadian Domestic Substances List (DSL):**
  - All ingredients are listed.
- **Canadian NPRI Ingredient Disclosure list (limit 0.1%):**
  - None of the ingredients is listed
- **Canadian NPRI Ingredient Disclosure list (limit 1%):**
  - 71-23-8 n-Propyl Alcohol

### SECTION 16 : Other information
This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.

**GHS Full Text Phrases:**

**Abbreviations and acronyms:**
- IMDG: International Maritime Code for Dangerous Goods
- PNEC: Predicted No-Effect Concentration (REACH)
- CFR: Code of Federal Regulations (USA)
- SARA: Superfund Amendments and Reauthorization Act (USA)
- RCRA: Resource Conservation and Recovery Act (USA)
- TSCA: Toxic Substances Control Act (USA)
- NPRI: National Pollutant Release Inventory (Canada)
- DOT: US Department of Transportation
- IATA: International Air Transport Association
- GHS: Globally Harmonized System of Classification and Labelling of Chemicals
- ACGIH: American Conference of Governmental Industrial Hygienists
- CAS: Chemical Abstracts Service (division of the American Chemical Society)
- NFPA: National Fire Protection Association (USA)
- HMIS: Hazardous Materials Identification System (USA)
- WHMIS: Workplace Hazardous Materials Information System (Canada)
- DNEL: Derived No-Effect Level (REACH)
