SECTION 1: Identification of the substance/mixture and of the supplier

Product name: Pentane

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25457

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:
AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

Supplier Details:
Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

Emergency telephone number:
Fisher Science Education Emergency Telephone No.: 800-535-5053

SECTION 2: Hazards identification

Classification of the substance or mixture:

- Flammable
  Flammable liquids, category 2

- Health hazard
  Aspiration hazard, category 1

- Irritant
  Specific target organ toxicity following single exposure, category 3

- Environmentally Damaging
  Chronic hazards to the aquatic environment, category 2

Signal word: Danger

Hazard statements:
Highly flammable liquid and vapour
May be fatal if swallowed and enters airways
May cause drowsiness or dizziness
Toxic to aquatic life with long lasting effects

Precautionary statements:
If medical advice is needed, have product container or label at hand
Keep out of reach of children
Safety Data Sheet
according to 29CFR1910/1200 and GHS Rev. 3

Effective date: 02.10.2015

Pentane

Read label before use
Keep away from heat/sparks/open flames/hot surfaces. No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/light/equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Wear protective gloves/protective clothing/eye protection/face protection
Avoid release to the environment
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do.
Continue rinsing
In case of fire: Use ... for extinction
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Collect spillage
Store in a well ventilated place. Keep cool
Store locked up
Dispose of contents and container to an approved waste disposal plant

Other Non-GHS Classification:

WHMIS
B2

NFPA/HMIS

SECTION 3 : Composition/information on ingredients

Ingredients:

<table>
<thead>
<tr>
<th>CAS 109-66-0</th>
<th>n-Pentane</th>
<th>100 %</th>
</tr>
</thead>
</table>

Percentages are by weight

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if...
After skin contact: Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Seek medical attention if irritation, discomfort, or vomiting persists. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed:
- Irritation
- Headache
- Nausea
- Shortness of breath;

Indication of any immediate medical attention and special treatment needed:
If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:
- Carbon oxides. Thermal decomposition can lead to release of irritating gases and vapors.

Advice for firefighters:
- Protective equipment: Use NIOSH-approved respiratory protection/breathing apparatus.
- Additional information (precautions): Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:
- Ensure adequate ventilation. Ensure that air-handling systems are operational.

Environmental precautions:
- Should not be released into the environment. Prevent from reaching drains, sewer, or waterway.

Methods and material for containment and cleaning up:
- Always obey local regulations. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal.

Reference to other sections:

SECTION 7: Handling and storage

Precautions for safe handling:
- Avoid contact with skin, eyes, and clothing. Do not eat, drink, smoke, or use personal products when handling chemical substances.

Conditions for safe storage, including any incompatibilities:
- Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials.
SECTION 8 : Exposure controls/personal protection

Control Parameters: 109-66-0, Pentane, NIOSH TWA 350 mg/m³
109-66-0, Pentane, ACGIH TLV TWA 600 ppm
109-66-0, Pentane, OSHA PEL TWA 1000 ppm

Appropriate Engineering controls: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Respiratory protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin: Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.

Eye protection: Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

General hygienic measures: Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.

SECTION 9 : Physical and chemical properties

<table>

 Density: Not Determined

**SECTION 10 : Stability and reactivity**

Reactivity: Nonreactive under normal conditions.
Chemical stability: Stable under normal conditions.
Possible hazardous reactions: None under normal processing.
Conditions to avoid: Incompatible materials. Ignition sources, excess heat.
Incompatible materials: Strong oxidizing agents.
Hazardous decomposition products: Oxides of carbon.

**SECTION 11 : Toxicological information**

**Acute Toxicity:**

<table>
<thead>
<tr>
<th>Route</th>

</tr>
</thead>
<tbody>
<tr>
<td>Oral</td>
<td>5,000 mg/kg</td>
</tr>
<tr>
<td>Inhalation</td>
<td>4 h - 364,000 mg/m³</td>
</tr>
<tr>
<td>Dermal</td>
<td>3,000 mg/kg</td>
</tr>
</tbody>
</table>

**Inhalation**: LC₅₀ (rat) 364,000 mg/m³

**Chronic Toxicity**: No additional information.

**Corrosion Irritation**: No additional information.

**Sensitization**: No additional information.

**Single Target Organ (STOT)**: No additional information.

**Numerical Measures**: No additional information.

**Carcinogenicity**: No additional information.

**Mutagenicity**: No additional information.

**Reproductive Toxicity**: No additional information.

**SECTION 12 : Ecological information**

**Ecotoxicity**

EC₅₀ - Daphnia magna (Water flea): 9.74 mg/l - 48 h

**Persistence and degradability**:

**Bioaccumulative potential**:

**Mobility in soil**:

**Other adverse effects**:

**SECTION 13 : Disposal considerations**

**Waste disposal recommendations**:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine
whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

## SECTION 14 : Transport information

**UN-Number**  
1465

**UN proper shipping name**  
Pentanes

**Transport hazard class(es)**  

⚠️ **Class:**  
3 Flammable liquids

**Packing group:** II

**Environmental hazard:**

**Transport in bulk:**

**Special precautions for user:**

## SECTION 15 : Regulatory information

### United States (USA)

**SARA Section 311/312 (Specific toxic chemical listings):**  
Chronic, Fire

**SARA Section 313 (Specific toxic chemical listings):**  
None of the ingredients is listed

**RCRA (hazardous waste code):**  
None of the ingredients is listed

**TSCA (Toxic Substances Control Act):**  
All ingredients are listed.

**CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):**  
None of the ingredients is listed

### Proposition 65 (California):

**Chemicals known to cause cancer:**  
None of the ingredients is listed

**Chemicals known to cause reproductive toxicity for females:**  
None of the ingredients is listed

**Chemicals known to cause reproductive toxicity for males:**  
None of the ingredients is listed

**Chemicals known to cause developmental toxicity:**  
None of the ingredients is listed

### Canada

**Canadian Domestic Substances List (DSL):**  
All ingredients are listed.

**Canadian NPRI Ingredient Disclosure list (limit 0.1%):**
None of the ingredients is listed

**Canadian NPRI Ingredient Disclosure list (limit 1%)**:
None of the ingredients is listed

### SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.

**GHS Full Text Phrases:**

**Abbreviations and acronyms:**
- IMDG: International Maritime Code for Dangerous Goods
- PNEC: Predicted No-Effect Concentration (REACH)
- CFR: Code of Federal Regulations (USA)
- SARA: Superfund Amendments and Reauthorization Act (USA)
- RCRA: Resource Conservation and Recovery Act (USA)
- TSCA: Toxic Substances Control Act (USA)
- NPRI: National Pollutant Release Inventory (Canada)
- DOT: US Department of Transportation
- IATA: International Air Transport Association
- GHS: Globally Harmonized System of Classification and Labelling of Chemicals
- ACGIH: American Conference of Governmental Industrial Hygienists
- CAS: Chemical Abstracts Service (division of the American Chemical Society)
- NFPA: National Fire Protection Association (USA)
- HMIS: Hazardous Materials Identification System (USA)
- WHMIS: Workplace Hazardous Materials Information System (Canada)
- DNEL: Derived No-Effect Level (REACH)
