Safety Data Sheet
according to 29CFR1910/1200 and GHS Rev. 3

**Effective date:** 01.04.2015

---

**SECTION 1 : Identification of the substance/mixture and of the supplier**

**Product name:** Potassium Bromide

**Manufacturer/Supplier Trade name:**

**Manufacturer/Supplier Article number:** S25478

**Recommended uses of the product and uses restrictions on use:**

**Manufacturer Details:**

AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

**Supplier Details:**

Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

**Emergency telephone number:**

Fisher Science Education   Emergency Telephone No.: 800-535-5053

---

**SECTION 2 : Hazards identification**

**Classification of the substance or mixture:**

- **Irritant**
  - Skin irritation, category 2
  - Eye irritation, category 2A

- **Environmentally Damaging**
  - Acute hazards to the aquatic environment, category 3

**Hazard statements:**

- Causes skin irritation
- Causes serious eye irritation
- May cause respiratory irritation
- Harmful to aquatic life

**Precautionary statements:**

- Do not eat, drink or smoke when using this product
- Wear protective gloves/protective clothing/eye protection/face protection
- Wash ... thoroughly after handling
- Avoid release to the environment
- Avoid breathing dust/fume/gas/mist/vapours/spray
- Use only outdoors or in a well-ventilated area
- Use personal protective equipment as required
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do.

Created by Global Safety Management, Inc. -Tel: 1-813-435-5161 - www.gsmsds.com
Continue rinsing
Collect spillage
If eye irritation persists get medical advice/attention
IF ON SKIN: Wash with soap and water
Take off contaminated clothing and wash before reuse
If skin irritation or a rash occurs: Get medical advice/attention
Specific treatment (see ... on this label)
Rinse mouth
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Store in a dry place
Store locked up
Store in a well ventilated place. Keep container tightly closed
Dispose of contents/container to ...

Combustible Dust Hazard:
May form combustible dust concentrations in air (during processing).

Other Non-GHS Classification:

**WHMIS**
D2A
**NFPA/HMIS**

NFPA SCALE (0-4)

HMIS RATINGS (0-4)

**SECTION 3 : Composition/information on ingredients**

**SECTION 4 : First aid measures**

**Description of first aid measures**

**After inhalation:** Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. Seek medical advice if discomfort or irritation persists. If breathing difficult, give oxygen.

**After skin contact:** Wash affected area with soap and water. Rinse/flush exposed skin gently using water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.
After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

Most important symptoms and effects, both acute and delayed:
Irritation, Nausea, Headache, Shortness of breath.;

Indication of any immediate medical attention and special treatment needed:
If seeking medical attention, provide SDS document to physician.

SECTION 5 : Firefighting measures

Extinguishing media
Suitable extinguishing agents: If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition

For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:
Combustion products may include carbon oxides or other toxic vapors. Thermal decomposition can lead to release of irritating gases and vapors. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Advice for firefighters:
Protective equipment:
Use NIOSH-approved respiratory protection/breathing apparatus.

Additional information (precautions):
Move product containers away from fire or keep cool with water spray as a protective measure, where feasible. Use spark-proof tools and explosion-proof equipment.

SECTION 6 : Accidental release measures

Personal precautions, protective equipment and emergency procedures:
Wear protective equipment. Transfer to a disposal or recovery container. Use spark-proof tools and explosion-proof equipment. Use respiratory protective device against the effects of fumes/dust/aerosol. Keep unprotected persons away. Ensure adequate ventilation. Keep away from ignition sources. Protect from heat. Stop the spill, if possible. Contain spilled material by diking or using inert absorbent.

Environmental precautions:
Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13

Methods and material for containment and cleaning up:
If in a laboratory setting, follow Chemical Hygiene Plan procedures. Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter)

Reference to other sections:

SECTION 7 : Handling and storage

Precautions for safe handling:
Minimize dust generation and accumulation. Wash hands after handling. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Follow good hygiene procedures when handling chemical materials. Do not eat,
drink, smoke, or use personal products when handling chemical substances. If in a laboratory setting, follow Chemical Hygiene Plan. Use only in well ventilated areas. Avoid generation of dust or fine particulate. Avoid contact with eyes, skin, and clothing.

**Conditions for safe storage, including any incompatibilities:**

Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store away from foodstuffs. Store away from oxidizing agents. Store in cool, dry conditions in well sealed containers. Store with like hazards. Protect from moisture.

### SECTION 8 : Exposure controls/personal protection

**Control Parameters:**

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>OSHA PEL TWA (Total Dust)</td>
<td>15 mg/m³ (50 mppcf*)</td>
</tr>
<tr>
<td>ACGIH TLV TWA (inhalable particles)</td>
<td>10 mg/m³</td>
</tr>
</tbody>
</table>

**Appropriate Engineering controls:**

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts (total/respirable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Use under a fume hood. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

**Respiratory protection:**

Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable.

**Protection of skin:**

The glove material has to be impermeable and resistant to the product/the substance/the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

**Eye protection:**

Safety glasses with side shields or goggles.

**General hygienic measures:**

The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.

**SECTION 10: Stability and reactivity**

**Reactivity:** Nonreactive under normal conditions.

**Chemical stability:** No decomposition if used and stored according to specifications. Hydroscopic.

**Possible hazardous reactions:**
- **Conditions to avoid:** Protect from moisture. Incompatible Materials. Dust generation.
- **Incompatible materials:** Strong acids. Strong bases. Oxidizing agents
- **Hazardous decomposition products:** Oxides of potassium, hydrogen bromide.

**SECTION 11: Toxicological information**

**Acute Toxicity:**
- **Oral:** 3070 mg/kg
- **Oral, rat: LD50**

**Chronic Toxicity:**
- **Oral:** May cause bromism characterized by disturbances of the central nervous system, skin and digestive tract. Repeated oral intake of bromides (>9mg/kg/day) may affect the central nervous system. Warning symptoms include mental dullness, slurred speech, weakened memory, apathy, anorexia, constipation, drowsiness and loss of sensitivity to touch and pain. Delete
- **Chronic Effect / Carcinogenicity**

**Corrosion Irritation:** No additional information.

**Sensitization:** No additional information.

**Single Target Organ (STOT):** No additional information.

**Numerical Measures:**
- **Carcinogenicity:** No additional information.
- **Mutagenicity:** No additional information.
- **Reproductive Toxicity:** No additional information.
SECTION 12 : Ecological information

Ecotoxicity
  Freshwater Fish: 96 Hr LC50 Pimephales promelas: >30 mg/L [static]

Persistence and degradability: Readily degradable in the environment.

Bioaccumulative potential:

Mobility in soil:

Other adverse effects:

SECTION 13 : Disposal considerations

Waste disposal recommendations:
  Product/containers must not be disposed together with household garbage. Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.

SECTION 14 : Transport information

UN-Number
  Not Dangerous Goods

UN proper shipping name
  Not Dangerous Goodsn

Transport hazard class(es)
  Not Dangerous Good

Packing group: Not Dangerous Goods

Environmental hazard:

Transport in bulk:

Special precautions for user:

SECTION 15 : Regulatory information

United States (USA)
  SARA Section 311/312 (Specific toxic chemical listings):
    Acute, Chronic
  SARA Section 313 (Specific toxic chemical listings):
    None of the ingredients is listed
  RCRA (hazardous waste code):
    None of the ingredients is listed
  TSCA (Toxic Substances Control Act):
    All ingredients are listed.
  CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):
    None of the ingredients is listed

Proposition 65 (California):
  Chemicals known to cause cancer:
    None of the ingredients is listed
Potassium Bromide

Chemicals known to cause reproductive toxicity for females:
None of the ingredients is listed

Chemicals known to cause reproductive toxicity for males:
None of the ingredients is listed

Chemicals known to cause developmental toxicity:
None of the ingredients is listed

Canada

Canadian Domestic Substances List (DSL):
All ingredients are listed.

Canadian NPRI Ingredient Disclosure list (limit 0.1%):
None of the ingredients is listed

Canadian NPRI Ingredient Disclosure list (limit 1%):
None of the ingredients is listed

SECTION 16: Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
