Protecting What Matters Most

## Assessment

### Hand Protection

#### AnsellGUARDIAN Assessment

AnsellGUARDIAN™ safety services is a sitewide assessment performed by Ansell safety experts. It's tailored to your business to help drive out costs, reduce complexity, and improve operational efficiency.

#### About

Our simple and clear processes focus on the most relevant areas. We can deliver best practice recommendations for a single application or an entire site. Every customer is different and so are their safety needs. Our 600+ safety experts assess each situation individually, using the data provided and our proven process. This results in a unique, tailor-made safety solution for your site that meets your objectives.

Our safety experts support the full implementation of our assessment. By supplying samples and educating your workers, we'll help ensure the success of PPE change management. We start our partnership by analyzing, benchmarking, implementing, and improving your PPE-related operations and performance. One step at a time, we assess your current and future safety needs.

#### Key Benefits

AnsellGUARDIAN assessments lead to injury reduction, reduced costs, increased compliance, and less PPE complexity.

- Personalized risk management solution: Leads to improved worker safety, injury reduction, and increased regulatory compliance
- Business performance improvements: Result in lower overall costs for your company
- Best practice recommendations: Optimize your PPE dispensing, improve your company's output, eliminate waste, and increase productivity
