Honeywell Safety Fall Protection Competent Person & Equipment Inspection Combo Training Course

Certificate holders are typically responsible for overseeing all job sites and annual equipment inspections. Additional hands-on inspection experience included.

About

This three-day course includes a 16-hour Competent Person and 8-hour Fall Protection Equipment Inspection for a discounted combo price.

Competent Person Training is designed for facility and site supervisors who must also serve as the competent person required by OSHA 1926.32(f), 1926.500, and 1910 standards.

Equipment Inspection is an additional day dedicated to the hands-on inspection of fall protection equipment designed to elevate your equipment inspection knowledge.

Key Benefits

- Taught by trained, educated, and experienced subject matter experts
- Leading PPE manufacturer with extensive behavior-based safety training courses
- Meets regulatory compliances
- Hands-on training
- Two-year certification
- Virtual or in-person location options
