Safety Auditing and Risk Assessments

MAC Safety provides risk assessments and safety auditing services anywhere in the United States or Canada. We serve a range of industries and work in conjunction with many regulatory bodies.

About

Risk assessments and safety audits are a necessity in any safety program.

Not only do safety audits aid in maintaining compliance with OSHA and other regulations and standards, but they also provide insight to the organization's safety performance.

Key Benefits

The MAC safety team takes the time to evaluate your specific organizational gaps, wants, and needs to create a custom program.

- Quantified risk assessments
- Custom reports per location
- Regulatory-specific auditing practices
- Continual trending capabilities
- Proprietary software use
